

BABY BANANA

Musa Paradisiaca

Jan Feb Mar Apr May Jun Jul Aug Sep Oct Nov Dec

Keep to:

10°C
65% RH

Although it belongs to the same family as the common banana, it is much smaller in size. It is known for its delicious sweet taste and smooth texture. Its color changes as it ripens, from green to yellow. It's perfect for consuming fresh, in creams, salads, and cakes. It is cultivated at altitudes between 1000 and 1500 meters above sea level.
